# SOURCE CODE

A FILM BY ELIZABETH UPTON

*...“The real life story of a woman whose ‘path’  
is forever changed”...*

[www.thesourcecode.net](http://www.thesourcecode.net)

*"An agreement was made  
The path was set forth  
Entering into a New World  
What was there hidden?  
Where did it come from?  
Magnitude felt  
Words unknown*

*Trust & Faith  
Show up and mean it  
Listen and watch it unfold  
Feel from your heart  
Open yourself  
Bring your camera along*

*Talk to the people  
Hear all their stories  
Take mental notes  
Connect all the dots  
Never hold back or  
Discount the small stuff  
Come from your heart  
And then you will Know!"*

This is an invitation. The same invitation that has found itself in the hands of those who have shown up and meant it. Those that are ready for a new kind of message. Those that know there is more to the Story. **This is a call out to you.** If you're that person then come forward. Let's invest in our future together. We have much work to do together  
you and I.
